#### Reason for the Difference

The main reasons of difference between forecast and actual results for aforementioned period are:

While revenues increased due to power sales volume increase, such expenses decreased as thermal fuel expenses due to increase of hydro power output, and maintenance and outsourcing expenses due to deferment of payment to the 2nd half of this fiscal year.

The Company has revised the forecast of results for full fiscal year ending March 31, 2014, as shown in the "Quarterly Financial Report for the Six Months Period Ended September 30, 2013."
