#### Reason for the Difference

Actual Results for six-months ended September 30, 2011 (both consolidated and non-consolidated) differs from the forecast of results previously filed on October 4, 2011.

This is because of such factors as decrease in thermal fuel expenses due to increase in hydro power output and decrease in expenses including maintenance cost due to deferment of payment to the 2nd half of this fiscal year.

The Company has revised the forecast of results for full fiscal year ending March 31, 2012, as shown in the "Quarterly Financial Report for the Six Months Period Ended September 30, 2011."
