

2012 Junkan No. 673
April 5, 2012

Hiroshi Watanabe,
Executive Officer,
Director of Environment in Main Environment &
Location Unit
Chubu Electric Power Co., Inc.

Director, Department of Environment,
Aichi Prefecture

Regarding Cooperation in accepting Debris resulting
from the Earthquake and Tsunami Disaster

Please consider the request for cooperation in our plan from the Governor of Aichi Prefecture, dated April 5, 2012, based on the details provided in the attachment.

1 Items for review by participating companies

Item	Details
Potential for provision of sites	(1) Area for installation of incinerator Space for installation of incinerator for incineration of debris (2) Area for disposal of ash Space for landfill disposal of ash produced by incineration of debris (3) Area for creation of temporary storage space Space for temporary storage of debris and ash * The scale of the facilities will be discussed in consultation with Chubu Electric Power
Location	Coal ash disposal area within grounds of Chubu Electric Power Co., Inc.'s Hekinan Thermal Power Station Rationale for selection: This is the largest waste disposal site possessed by any company in the prefecture, and was selected as a candidate area based on a comprehensive consideration of location, etc.
Period, conditions for land use, etc.	To be decided in future in consultation with Chubu Electric Power

- Aichi Prefecture will lead the project and will be responsible for all associated expenses.
- Aichi Prefecture will maintain the facilities as designated general waste disposal facilities based on the Act on Special Measures to respond to Environmental Contamination by Radioactive Substances released as a Result of Damage to a Nuclear Power Station caused by the Great East Japan Earthquake occurring on March 11, 2011.
- Aichi Prefecture will present details of standards for acceptance of waste (radiation levels, etc.) during the process of review and consultation.

2 Overview of project for acceptance of debris in Aichi Prefecture

Item	Details
Candidate locations for disposal	(1) Industrial District 2, Konan 5, Nagoya City (2) Chubu Electric Power Co., Inc.: Coal ash disposal area within grounds of Hekinan Thermal Power Station (3) Toyota Motor Corporation: Industrial waste landfill site within grounds of Tahara Plant
Schedule	<ul style="list-style-type: none"> • Commencement of construction of disposal sites/incinerators • Commencement of acceptance of debris • Monitoring following disposal } Undecided
