

Division	Equipment class	Designation	Detailed specification	Quantity	Unit	Place of delivery	Expected order	Expected delivery	Subject matter
Others	Component	Plasma emission spectroscopy device	HITACHI PS3520UVDD II	1	Set	Material Laboratory on the fifth floor of the main building, Research & Development Division	2023/4	2023/12	Replacement of plasma emission spectroscopy device
Others	Component	Exhaust gas measurement device	Purpose: Measure combustion exhaust gas Analysis item: NH3, N2O, NO, NO2, Nox, CO2, O2	1	Unit	Machine Group, Electric Power Research & Development Center	2023/4	2024/3	Remodeling of small combustion test device
Others	Component	Generator control panel for simulated transmission	Control panel (non-standard) for simulation generator x 4 units, including governor and exciting circuit	1	Set	System test building, Electric Power Research & Development Center	2023/10	2025/6	Replacement of generator control panel for simulated transmission
